PaperCrypt Recovery Sheet

What is this?

This is a PaperCrypt recovery sheet. It stores your data together with its identifier, creation date, purpose, and comment. Keep it safe, so the original data can be recovered if it is ever lost or damaged.

Binary Data Representation

The data is contained in a QR code for programmatic recovery, and in text form for recovery without the original software. Text mode prints data in lines of 24 bytes, ending with its CRC-24 checksum; the final line holds the checksum of the whole block (polynomial 0x864cfb, initial 0xb704ce). The data is gzipped and encrypted.

Recovering the data

Scan the QR code, or copy the data into a computer by typing it in or using OCR. Then decrypt it with the encryption passphrase.

```
# PaperCrypt Version: v3.5.1-0.20260901131811-473c5d9dc529
# Content Serial: HEJJHI
# Purpose: Example Sheet
# Comment: Lowercase PDF Example
# Date: Tue, 01 Sep 2026 15:19:47.642088000 +0200
# Data Format: PGP
# Content Length: 558
# Content SHA-256: KHJN0iKAB2CD17cCCRGDe70FcuHeaKOLk1FRneFEu9k=
# Header CRC-32: 75309ed8
```
